NT90L

UL US E160644 CEC 13002104039

Features

- Single and double coils magnet latching relay available.
- Switching capacity up to 40A.
- Energy saving and environmental friendly product.

048-1800	48	2×1280	38.4	48~57.6				

CAUTION: 1. When latching relays are installed in equipment, the latch and reset coil should not be powered simultaneously. Coil should not be pulsed with less than the nominal coil voltage and pulse width should be a minimum of three times the specified operate time of the relay. If these conditions are not followed, it is possible for the relay to in be the magnetically neutral position .
 2. Switching voltage is for test purpose only and are no to be used as design criteria.
